 formation in Washington.

 decreed that there should be no

 ified so as to allow the dance con-  
 ducted each year at the closing of the  
 public schools to run until 2 o'clock.

 just entered upon its half century  
 year. The paper was started at  
 Lexington in 1865 and in 1875 was  
 moved to Louisville. John W.  
 Vreeland, the present President and  
 General Manager of the Journal, be-  
 came the sole owner in 1894, having  
 been connected with the Journal  
 since 1887. Under his management  
 the circulation has been largely in-  
 creased throughout the Southern,  
 Southwestern and Middle Western  
 States, and today it occupies a pos-

## CASTE BARS MEDICAL AID

Lowly Social Rank Prevents Hospital  
 Succor for East Indian Coolie  
 When Wounded.

Many people, unless actually fam-  
 ilar with the ways and customs of  
 the native of India, have little idea  
 as to how superstitious many of these  
 people are, especially with regard to  
 their "caste" system.

Not very long ago a coolie, while  
 passing through the jungle, was se-  
 verely mauled by a bear. His com-  
 rades, however, although they knew  
 that a few miles distant there was a  
 well-equipped hospital, conveyed him  
 to a village where he was kept with-  
 out medical assistance and in a blaz-  
 ing sun for three days.

When eventually brought into the  
 hospital the man's plight may be bet-  
 ter imagined than described. The  
 surgeon and his assistants managed  
 to keep him alive, but his face is so  
 disfigured that he is known in the  
 district as the "reache wallah" (bear  
 man).

The most extraordinary thing  
 about this case is that the unfor-  
 tunate person was, during the time  
 he lay in the hospital, considered  
 by the fraternity to be unclean, with  
 the result that his own wife was,  
 through attending to his require-  
 ments, thrown out of "caste."

## COMPARES HEAT OF STARS

Scientist Says Stellar Bodies Are  
 From 2,000 to 27,000 Degrees  
 in Temperature.

During two years Rosenberg has  
 studied photographically the spectra  
 of the 70 most brilliant stars in the  
 northern hemisphere, from the first  
 to the third order of magnitude. By  
 a comparison of their spectra it is  
 possible to deduce their tempera-  
 tures.

The results obtained agree well  
 with those of Wilsing and Scheiner;  
 stars of the helium type are the hot-  
 test, and the red stars are the cool-  
 est. As a specimen, the following  
 temperatures are quoted: Sirius,  
 27,000 degrees; Vega, 22,000 de-  
 grees; Algol, 12,000 degrees; Arc-  
 turus, 3,000 degrees; Aldebaran,  
 2,000 degrees.

From the aspect and relative dis-  
 placement of the spectral lines an  
 idea may be formed of the pressure  
 conditions in the atmosphere of the  
 stars studied. Thus Adams has  
 found that in the light-emitting at-  
 mosphere of Sirius the pressure is 12  
 times that existing in the solar photo-  
 sphere, which confirms the hypothe-  
 sis that Sirius is a simple mass of  
 gas without a defined surface of con-  
 densation.

## EXTREMELY THIN.

"I met Slimwit on the street yes-  
 terday and he told me he was en-  
 veloped in a veil of thought."

"Just so."  
 "But compared to a veil of Slim-  
 wit's thought, the veil a Salome  
 dancer uses is as thick and tough as  
 steel armor plate."

## AN UNEXPECTED PERFORMER.

"I understand that Mr. Blowster  
 took a prominent part in the ama-  
 teur theatricals given at his house  
 last night."  
 "So he did. The old gentleman  
 came home full of highballs and  
 broke up the show."

## RETRIBUTION.

"Did the play have a happy end-  
 ing?"  
 "You bet it did. Some one in the  
 gallery hit the villain square in the  
 face with a tomato."—Houston Post.

## THIS HECTIC LIFE.

"Well, I must say that is an ap-  
 propriate combination."  
 "To what do you refer?"  
 "I see a dish-faced girl dancing  
 the 'kitchen sink.'"

## HIS SPECIES.

"The Massachusetts broker who  
 booms things so, follows Miss Pettie  
 around like a dog."  
 "I guess he's her Boston bull."

## NATURAL PLACE.

"What is before the club at this  
 meeting?"  
 "I believe the question of furni-  
 ture is on the carpet."

## SOMETHING LIKE IT.

 was wrong, so I began to take Car-

Prompt Action Will  
Stop Your Cough

When you first catch a cold (often  
 indicated by a sneeze or cough),  
 break it up at once. The idea that  
 "It does not matter" often leads to  
 serious complications. The remedy  
 which immediately and easily pen-  
 etrates the lining of the throat is the  
 kind demanded. Dr. King's New  
 Discovery soothes the irritation,  
 loosens the phlegm. You feel bet-  
 ter at once. "It seemed to reach the  
 very spot of my Cough" is one of  
 many testimonials. 50¢ at your

## Neutralized Tombs.

Mukden is one of the historic cities  
 of the Far East. It has a population  
 of about three hundred thousand, who  
 live partly in the old walled city and  
 partly in its extensive suburbs. The  
 walled city is a square inclosure, sur-  
 rounded by massive ramparts, brick  
 built and with fantastically decorated  
 gates. It was the capital of the Man-  
 chu dynasty that conquered China in  
 the seventeenth century and reigned  
 at Peking until the establishment of  
 the Chinese republic. To the north  
 and northeast of the city there are two  
 extensive parks, with marble gate-  
 ways, numerous pagodas and halls  
 for ceremonial rites, avenues of colos-  
 sal figures of uncouth animals carved  
 in stone and grave mounds surrounded  
 by groves of sacred trees. These parks  
 are the burial places of the Manchu  
 dynasty, and in the operations around  
 Mukden both the Russian and Japa-  
 nese commanders took the greatest  
 care that no troops should enter the  
 inclosure and that no injury should be  
 done to the groves and temples.—  
 From "Famous Modern Battles."

Children Cry  
FOR FLETCHER'S  
CASTORIA

Conscientious Student.  
 "You admit that you are not smart  
 enough to tell railroad people how to  
 run their business!" "Without hesita-  
 tion." "But I thought you had made  
 a study of railroad problems?" "I  
 have. But I haven't yet gotten far  
 enough along to thoroughly under-  
 stand even their time tables."

## GENTLE FORCES OF NATURE

Wonderful Agents That Transform  
 Continents of Granite Into  
 Most Fertile Soil.

What adds to the wonder of the  
 earth's crust is that the millstones that  
 did the work and are still doing it are  
 the gentle forces that career above our  
 heads—the sunbeam, the cloud, the  
 air, the frost. The rain's gentle fall,  
 the air's velvet touch, the sun's noise-  
 less rays, the frost's exquisite crystals,  
 these combined are the agents that  
 crush the rocks, pulverize the moun-  
 tains and transform continents of  
 sterile granite into a world of fertile  
 soil.

It is as if baby fingers did the work  
 of powder and dynamite. Give the  
 clouds and the sunbeams time enough,  
 and the Alps and the Andes disappear  
 before them or are transformed into  
 plains where corn may grow and cattle  
 graze.

The snow falls as lightly as down  
 and lies almost as lightly, yet the  
 crags tumble beneath it; compacted  
 by gravity, out of it grew the tremen-  
 dous ice sheet that ground off the  
 mountain summits, that scooped out  
 lakes and valleys and modeled our  
 northern landscapes as the sculptor  
 his clay image.—John Burroughs.

## Consuls Have Troubles.

The stranded American is the bane  
 of the consul. His office is invaded by  
 persons claiming his good offices after  
 their plans have gone askew. Those  
 in better circumstances demand that  
 the consul indorse their notes at the  
 bank, those in poorer circumstances  
 demand to be sent home. It is appar-  
 ently a fixed idea that a consul can  
 draw on the treasury for the relief of  
 stranded Americans. Many cases of  
 distress are pitiable and consuls, not  
 even recouped against the social ex-  
 penses incidental to their position,  
 have to give relief out of their pri-  
 vate means and to stand the inevi-  
 table loss. The only persons whom  
 consuls are authorized by law to aid  
 are sailors on the articles of a vessel  
 of American registry wrecked within  
 their consular districts, and in this  
 case only to the extent of immediate  
 relief and passage to the next Amer-  
 ican port.

## Ruskin's Grocery Adventure.

From time to time in the last few  
 years various men and women of  
 prominence have gone into the gro-  
 cery business to give the poor a  
 chance to buy small quantities at the  
 same rate as those for which their  
 richer brothers buy large quantities.  
 Usually these plans have failed, for  
 some reason or other. This was the  
 case with Ruskin's grocery, for Rus-  
 kin himself found it expedient to  
 close it. For, said he, the poor like  
 their groceries "brilliantly lighted  
 and eloquently ticketed," and he  
 would compete neither with "gas nor  
 rhetoric."
